

Technische Fiche: LI112962--

# TWISTER GU6.5 inbouwspot rond chroom max. 35W richtbaar

## Technische gegevens

|                              |                           |
|------------------------------|---------------------------|
| Leverancier                  | SLV                       |
| Beschermingsklasse           | I                         |
| Type verlichting             | Inbouw plafondverlichting |
| Lichtbron/ Lamp              | Halogeenlamp              |
| Aantal lampen                | 1                         |
| Lampvoet                     | T4                        |
| Vermogen (W)                 | 35                        |
| Nominale werkspanning AC (V) | 230                       |

## Technische gegevens - vervolg

|                         |                                             |
|-------------------------|---------------------------------------------|
| Bevestiging             | Plafondinbouw                               |
| Boring voor inbouw (mm) | Ø100                                        |
| Inbouw diepte (mm)      | 110                                         |
| Afwerking               | Chroom                                      |
| Materiaal               | Aluminium<br>Staal                          |
| Buitendiameter (mm)     | 110                                         |
| Optionele toebehoren    | LI153721--,LI153722--,LI153723--,LI153726-- |
| ØxH (mm)                | 110x115                                     |
| Uitsnijding (mm)        | Ø100                                        |

## Artikelen

| Omschrijving                                            | Referentie |
