

Technische Fiche: LIG2100006

# VITO LED 30W 2100lm/840 23° 3-fase spot wit

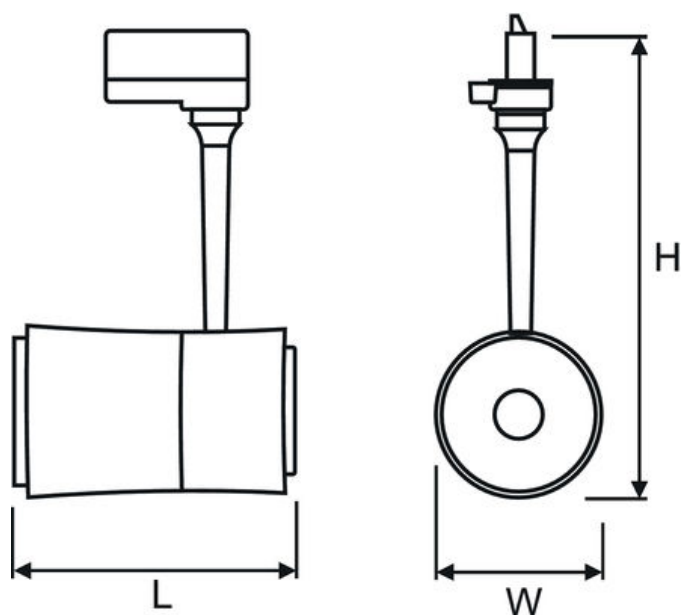

## Lichtverdelingscurve

## Technische gegevens

|                            |                    |
|----------------------------|--------------------|
| Kleur                      | Wit                |
| Stralingshoek (°)          | 23                 |
| Lamphouder                 | LED printplaat     |
| Vermogen (W)               | 29                 |
| Systeem efficiëntie (lm/w) | 72                 |
| Lichtkleur                 | Neutraalwit        |
| Kleurtemperatuur (K)       | 4000               |
| Kleurweergave-index (Ra)   | >80                |
| Lichtstroom (lm)           | 2100               |
| Levensduur (h)             | 50.000 / L70 / B50 |
| Beschermingsgraad          | IP20               |
| LxBxH mm                   | 145x88x200         |
